There's just one thing a man can have In all this world of woe and strife,

That makes the business not too bad, And that one thing's an easy wife. Dost fancy that I love my girl For rosy cheeks or raven hair? The holds my heart because she laughs Because she laughs and doesn't care.

I put my boots just where it suits, And find them where I put them, too That is a thing, you must allow, A chap can very seldom do. I leave my papers on my desk; She never dusts them in a heap, Or takes to light the kitchen stove

The very one I want to keep. On winter nights my cozy dame Will warm her toes before the fire; She never scolds about the lamp, Or wants the wick a trifle highe

On Sundays she is not so fine But what her ruffles I can hug: I light my pipe just where I please, And spill the ashes on the rug.

The bed is never filled with "shams"-A thing some women vilely plan To worry servants half to death, And spoil the temper of a man. She lets me sleep to any hour,

Nor raises any horid din If it just happens now and then To be quite late when I come in I tell you, Jack, if you would wed,

Just get a girl who lets things run; She'll keep her temper like a lamb, And help you on to lots of fun. Don't look for money, style or show, Or blushing beauty, ripe and rare; Just take the one who laughs at fate-Who laughs and shows she doesn't care.

You think, perhaps, our household ways Are just, perchance, a little mixed; Oh, when they get too horid bad, We stir about and get things fixed. What compensation has a man

Who earns his bread by sweat of brow, If home is made a battle-ground. And life one long, eternal row !

THE FIFTY DOLLAR BILL

From Saturday Night. Mrs. Dean sat alone in her little kitchen. She never used her parlor. There was the extravagance of an extra fire to be considered—the fact that the sest rag carpet, woven by her own skillful hands must not be worn out too recklessly, the dread possibility of sunshine fading out these chair covers. Mrs. Dean was an economist. She bezeved in making everything last as ong as it possibly could. And so she made the kitchen her headquarters, and sat there knitting, with her feet comfortably balanced on the stove hearth, the saucepan of apples bubbling away at the back, and the sound of her husband's axe ringing from the back shed 48 he cut and split the kindling wood.

piled up there in well seasoned logs. She was a little wrinkled face woman of fifty, with stiff ribbon bows in her cap, hair that seemed dried up instead of silvered, and keen blue eyes that twinkled as if they had discovered the secret of perpetual motion. To save money was her chief end and aim in life. The very mittens she was knitting were to be sold at the village store in exchange for tea, sugar, spices, and all necessary groceries. "A penny saved is as good as a penny earned," was the golden rule by which she shaped her

"I'm glad I took that money out of the savings bank yesterday," said Mrs. Dean to herself as the bright needles clicked merily away, "People say it isn't quite safe And one can't be too careful. But then, again, there's the danger of burglars-though to be sure, no burglar," she added, with a complacent inward chuckle, "would ever think of looking in the folds of the old Clinkerville Clarion newspaper in the wall pocket on the wall. It's the bureau drawers, and the trunks, and the lockedup chests that they aim for. A fiftydollar bill! a clean, crisp, new fifty-dollar bill! And all savings too, out of the house money."

Just then there sounded a knock at the door, and in came old Dr. Bridgman, rubicund with the touch of the March wind, and mufled up in the furs of the wild animals which, from time to time he himself had shot.

"Good day, Mrs. Dean, good day!" said he, "No, thank you; I can't sit down. I'm a deal too busy for that. But I heard yesterday that you took fifty dollars out of the savings bank?"

"Yes," said Mrs. Dean, her face involuntarily hardening, "I did!" "We are taking up a subscription to

to get little lame Dick Bodley a cart and donkey, so that he can go around peddling tinware," said the doctor. "It's pretty hard for any one afflicted as he is to get along, and if you can help us

"But I can't," interposed Mrs. Dean breathlessly. "The money was an investment. I don't propose to cut it up into little bits."

"It's a deed of charity, Mrs. Dean," said the good man, "to help lame Dick Bodley."

"I dare say," said Mrs. Dean, a little irritably. But I never pretended to be a charitate character."

The doctor way away, and the next ator are Hurst, a rosy girl of eighteen.

Excuse me for interrupting you,

Mrs. Dean," said she, "but Larry Johnson was at the bank yesterday, and he tells me that you drew out your money!" "Was all creation there?" though Mrs. Dean.

But she said nothing, only knit away until her needles seemed to glance and glitter like points of fire.

"I am trying to get a boarding place at Mrs. Swipes'," added Helen, colorirg, "so as to be near the district school, where I am to teach this spring. "It's altogether against my principles," said Mrs. Dean, with her face as hard as if it had been carved out of hickory.

Helen Hurst crept out, feeling humiliated and disappointed beyond all expression.

Mrs. Dean chuckled at her own shrewdness; but she hardly had time to stir up the apples in the saucepan, before Mrs. Graham ertered with a little leather covered memorandum book and pencil.

"I am looking for charitable people, Mrs. Dean," said the Squire's wife, with a laugh.

"Then you've come to the wrong place," said Mrs. Dean, frigidly.

"Poor Patrick O'Hara was killed yesterday, in the machinery of the rollingmill," said Mrs. Graham, ignoring her neighbor's response. "He has left a wife and eight children, totally desti-

"Will you not contribute something toward relieving their destitute condition?" urged Mrs. Graham, opening the book and holding the pencil ready for

"Why, Betsy," said he, "I thought you never were going to wake again. Here you sat, with the fire dead out, and I've had to kindle it up again."

"Bless me!" said Mrs. Dean. "I must have been asleep quite a while. But"-as she started up she saw that the old wall-pocket opposite was empty | white morning and were known as -"where is that old number of the white queens. Clinkerville Clarion!"

Mrs. Dean was a resolute woman, full of character. She went to her table drawer, took out a sheet of paper and wrote to Dr. Bridgman, inclosing a dollar toward lame Dick Bodley's eart and horse. She sent another dollar to Mrs. Graham for the poor little O'Haras, and promised to donate a barrel of russets, a bushel of potatoes and some of her husband's cast-off clothes to cut over for the children. And she sent for Helen Hurst to come and

"I can't "lend you ten dollars, my dear," said she, "because I haven't got it. but I'll tell you what I will do I'll let you make your home here as long as you please. There's a nice spare room and its an eighth of a mile nearer than Mrs. Swipes to the district school."

"O, how very, very good you are!" said Helen, her eyes swimming with

grateful tears. "Good!" cried Mrs. Dean. "I'n just beginning to see what a selfish, greedy creature I've been all my life. But, you're welcome, my dear, and you

"I can't be very liberal," she Lid, but I am determined to do what I ean."

Emblems of Morning.

"I trust that black will not always re main the emblem of mouraing in this country." said a dealer in mourning goods who is a scholar as well as a merchant. "It is not a suitable, emblem cut it implies an absence of light and a want of life, which we certainly do not wish to convey as our conception of the state of our departed friends. Mourning is supposed to be the outward visible sign of inward grief. The notion of a change, however, would not readily be received, for when one has to put on the habiliments of woe, grief is too

strong to be overcome by fashion." "What other colors are used in

"In Italy women grieve in white garments and men in brown. In China white is worn by both sexes. In Turkey, Syria, Cappadocia, and Armenia celestial blue is the tint chosen: in Egypt yellowish brown, the hue of the dead leaf, is deemed proper in Ethiopia, where men are black, gray is the emblem of mourning. All of these colors are symbols. White symbolizes purity, an attribute of our dead; the celestial blue, that place of rest where happy souls are at peace; the yellow or all human hope, and that man falls as the autumn leaf, and gray whispers of Lycians consider mourning for the dead an effeminate practice, and so when When she waked up, roused by the they grieve they put on women's clothes as a symbol of weakness and as a shame to them for a lack of manliness. Where Women are Employed.

In Bantam, an East Indian tributary of Holland, the relation of the sexes is peculiar. The government of that province is almost entirely in the hand of women, the sovereign only being a man. The council is composed of three women, all the State authorities, court functionaries, military commanders and soldiers without exception are women, the men being devoted to agriculture. The King's body-guard is composed of the female elite. Amazons riding in who was trying to crack dried up pig-the masculine style, wearing steel points which they discharge at full gallop, and swing their lances gracefully. If the King dies childless, a hundred of the Amazons assemble and choose one of their own sons to be nominated sover-

There is a certain class of revedies for constipation absolutely useless. These are boluses and potions made in great part of podophyllyn, aloes, rhubarb, gamboge and other worthless ingredients. The damage they do to the someths of those who use them is incalculable. They evacuate the bowles, it is true, but always do so violently and profusely, and hesides, gripe the bowels. Their effect is to weaken both them and the stomach. Better far to use the agreeable and salutary aperient, Hostetter's Stomach Bitters, the laxative effect of which is usver preceded by psin, or accompanied by a convuisive, violent action of the bowels. Oa the contrary, it invigorates those organs, the stomach and the entire system. As a means of curing and preventing malarial fevers, no medicine can compare with it, and it remedies nervous debility, rheumatism, kidney and blader inactivity, and other inorganic aliments. A Servian Inn.

At the inns of Servia the host sits at the table and takes care that the guests has everything promptly, and of the bestth e house can afford. He scolds the waiter and often swears at him in gurgling Slave oaths, if things are not satisfactorily managed. He brings a live coal in the tongs if the guest takes out a cigar (matches are unknown). finds out all about his guest (if he can), and listens with interest and childish simplicity to everything told to him about the great outer world. A traveler once happened to be out of eigars and took to smoking cigarettes. As a rule he rolled a cigarette slowly and badly. As usual the host stood respectment or two of silence, "there's alesson fully by with a coal; he blew it mos religiously to keep it alive, until the stranger felt compelled to think of his family (a wife and children innumerable) and what would become of them in case he burst a blood vessel. His neck swelled and got dark red, the tears ran down his cheeks, and the veins stood out on his forehead; he had his back humped up, and his hair like a blacking brush. The tobacco was dry and dusty, and what could the visitor do? It would be disappointing to tell the landlord he did not want it; he could not make the eigarette, so he rolled up paper and smoked it. Poor fellow, the landlord staggered back to the fireplace, and could barely find breath to bid the stranger "Ees Bogum" (God be with you).

I tried to take quinine in different forms, but it flad such a severe effect on me that I could not and did not take it, but still suffered with the fever, and also chills occasionally. My case was pronounced by an eminent physician to be a case of malarial fever. I was induced to try your Pad, and I must say that I grew better every day after I applied it, and had no return of the fever or chilis afterwards, I am now, I think, entirely well; at least I feel as well as ever. I took no medicine of any kind after putting on the Pad, and I attribute my cure entirely to it. I recommend it to every one afflicted as I was.
